

**SOLID BRASS PADLOCKS**

# Tough Locks for Tough Jobs

Hercules Industries, Inc. has been a central Ohio business since 1969. Located in Prospect, our company manufactures the Herculock Padlock, a solid brass tumbler pin padlock that is available in many sizes and shackle clearances.

Our padlocks are used by utilities, municipalities, industries, pipelines, refineries, governments and many other fields. They are precision-crafted out of solid brass to withstand inclement weather conditions. Shackles are available in brass, stainless steel or heat-treated steel. Padlocks are available keyed alike or different, master-keyed and grand master-keyed. We can key our padlocks to the most popular keyways (i.e., Master, Corbin, Yale, Best, and others). We also offer a variety of shackle clearances, ranging from 7/8" to 8".

The Herculock has met the security and safety needs of our customers for over 50 years. We are committed to competitive prices, fast delivery, and the highest quality.

**Series 400**

Shackle  
Diameter  
3/16"

Body Width 1-1/8"

**Series 570**

Shackle  
Diameter  
9/32"

Body Width 1-1/2"

**Series 540**

Shackle  
Diameter  
3/16"

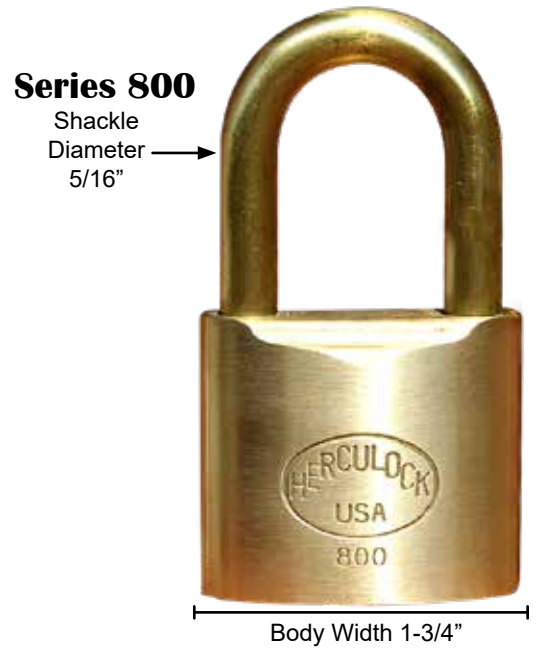

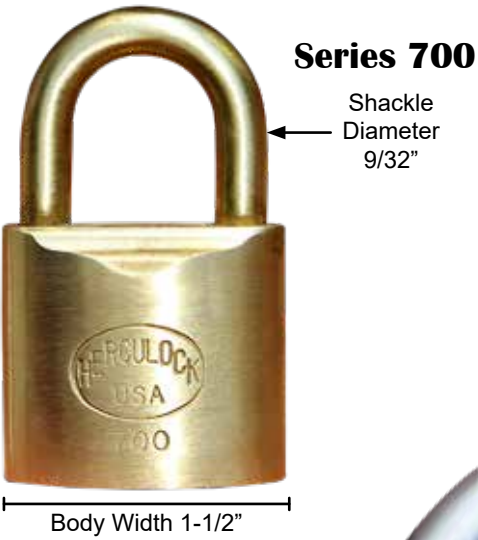

Body Width 1-1/2"

**Series 600**

Shackle  
Diameter  
1/4"

Body Width 1-1/2"

Chart shows "stock" sizes. Other sizes available upon request.  
Longer lead times may apply.

## HEAT TREATED SHACKLES

Heat Treating the shackle makes the shackle stronger than brass or stainless steel. Heat Treating is available on the locks and shackle lengths depicted in the chart below.

Lock Series	Shackle Length			
700HT	1-1/2"			
800HT	7/8"	1-1/8"	1-5/8"	2"
900HT	1"		2"	
980HT	1-1/4"		1-5/8"	

Multi-Entry Device  
(MED2) with 2 locks

Multi-Entry Device  
(MED4) with 4 locks

The Herculock is available in several different  
body sizes and shackle lengths  
(see chart inside)

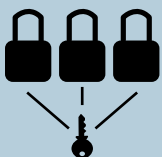

Add a customizable tag  
(available in different colors)

Padlocks can be painted in a  
variety of colors

# Choose Your Keying Options

## Keyed Alike

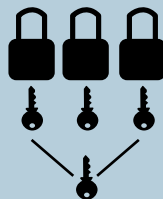

All padlocks are  
keyed the same.  
One key opens  
all padlocks.

## Individually Keyed

Padlocks are  
keyed differently  
and used by  
individual users.

## Master Keyed

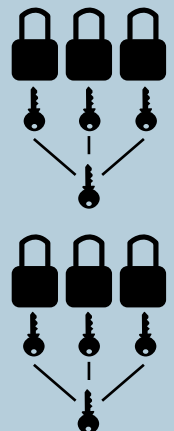

Padlocks are keyed  
differently, however,  
the master key (sold  
separately) can open  
all individual keyed  
padlocks.

## Keyed Alike in Sets

Padlocks within  
the same set  
are keyed alike,  
but are keyed  
differently than  
other sets.

## Master Keyed Keyed Differently in Sets

All padlocks within  
a set are individually  
keyed and supplied  
with one single key that  
opens any lock within  
that set.
